📋 Real-time Order Monitoring & Management

Enables catering teams to view and verify every employee meal scheduled for today in real-time:

- **Table Details:** Displays Employee ID, Full Name, Operating Company, Meal Category, Subsidy Plan, Meal Slot, Status (Ordered/Dispensed), and Exact Booking Time.
- **Multi-Dimensional Filters:** Instant search by Employee Name/ID, Company dropdown, Meal Slot filter, Status filter, and Subsidy Plan filter.
- **Order Cancellation:** Dedicated **"Delete"** button to remove erroneous bookings upon verified request.

📑 Standardized Formatted Excel Export

Click **"Export Today's Formatted Excel (.xlsx)"** to generate an official print-ready spreadsheet containing:

- Summary breakdown headers for catering contractor handoff.
- Alphabetical employee roster segmented by meal slots.
- Signature verification columns for physical counter dispensing.

🔍 Historical Allocation Audit Engine

Allows HR, finance, and plant management to inspect and audit past meal allocations without risking active operational data:

- **Date Range Selector:** Flexible "From Date" to "To Date" calendar pickers to query any historical fiscal period.
- **Employee Audit Lookup:** Search by Employee ID or Name to review individual attendance and meal claim records.
- **Company & Subsidy Auditing:** Filter historical records by Company entity and Subsidy tier.

📥 Historical Excel Export

Click **"Export Historical Excel (.xlsx)"** to produce consolidated audit files utilized for:

- Monthly payroll meal deductions and catering cost reconciliations.
- External catering invoice validation and discrepancy resolution.
- Compliance reporting for internal and external corporate audits.

Automated Multi-Day Archival Architecture

Automated midnight routines ensure database performance while preserving permanent compliance archives:

- **3-Day Consolidated Excel:** Each daily archive compiles target day allocations combined with the 2 preceding days into a structured multi-tab Excel workbook.
- **Firebase Cloud Storage:** Archives are securely uploaded to cloud storage with immutable download links.
- **1:00 AM Auto-Cleanup:** Automatically prunes temporary active allocations older than 2 days to maintain blazing system performance.

On-Demand Archival Tools

- **"Archive Yesterday's Data":** One-click manual backup trigger.
- **"Archive Custom Date...":** Creates an archive for any arbitrary historical date on request.
- **"Run 1:00 AM Cleanup":** Manual purge for test or redundant data.
- **Card View:** Visual cards detailing daily portions, dispense rate %, meal slot breakdowns, and direct Excel download.

Centralized Workforce Master Database

Maintains employee profiles for 579+ factory workers, staff, and contractors across all operating entities:

- **Profile Fields:** Employee ID, Full Name, Designation, Meal Category (Staff, Worker, Executive, Contractor), Payment Plan (Full Paid, Half Paid, Not Paid), and Company.
- **Instant Search:** Find any employee in milliseconds by typing their ID, name, or company.
- **Profile Modification:** In-line **"Edit"** and **"Delete"** buttons for employee maintenance.

Bulk Roster Excel Operations

- **"Download Template":** Downloads a pre-formatted standardized template for workforce data.
- **"Import Excel":** Instant bulk upload of new employee lists from HR systems without manual data entry.
- **"Export":** Generates a full workforce roster export in seconds.
- **"Add Employee":** Form modal to manually enroll individual new hires.

Category Subsidy Policy Matrix

Configures company meal subsidy rules that automatically apply during employee booking:

Meal Category	Subsidy Plan	Target Employee Group
Worker	FULL PAID	Plant Operations & Line Staff
Staff	HALF PAID	Office & Administrative Staff
Executive	FULL PAID	Senior Management & Executives
Visitor	FULL PAID	Official Guests & Auditors
Contractor	NOT PAID	Third Party & External Contractors

Operating Companies & Database Tools

- **Operating Companies Tab:** Manage entities under the Hayleys Eco Solutions umbrella (e.g. Hayleys Eco Solutions, Toyo, etc.).
- **Database Tools Tab:** Routine database re-indexing, cache invalidation, and data integrity verification utilities.
- **"Add Category":** Quickly add new employee classifications with custom subsidy entitlement.

Standard Operating Procedures

දෛනික මෙහෙයුම් පිරික්සුම් ලැයිස්තුව | தினசரி செயல்பாட்டு சரிபார்ப்பு பட்டியல்

Daily Operational Timeline for Catering & Plant Supervisors

- **Breakfast Cutoff Verification:** Review breakfast portions on *Dashboard*. Click *"Export Today's Formatted Excel"* on Reports page for kitchen headcount.
- **Lunch Cutoff Verification:** Finalize lunch counts immediately after the 11:00 AM cutoff. Dispatch headcount to the central kitchen.
- **Dinner Cutoff Verification:** Verify night shift orders after 04:00 PM cutoff. Print the verified delivery sheet.
- **Automated Archival:** Nightly cron automatically compiles the 3-day consolidated Excel archive and triggers 1:00 AM storage maintenance.

Common Troubleshooting Tips

- **Order Not Appearing:** Check if the employee confirmed the booking before the slot cutoff time.
- **Duplicate Order Warning:** The system strictly permits one portion per meal slot per day to prevent double-booking.
- **Worker Not Found:** Check the *Employees Directory* to ensure the employee is registered under active status.
- **Export Excel Failure:** Ensure pop-up blockers are disabled in your browser.
